### MOUNTING INSTRUCTIONS for SLEDZ and USLEDZ

**1. Unpack the light**

**Rotate the arms so they are perpendicular to the shade (FIG 1)**

**2. Installation on the frame**

**-Place frame face-down on a table**

**-Center the picture light left-to-right on the frame and attach the Mounting Brackets to the frame in line with the arms**

**-For metal frames, use the enclosed Channel Brackets to secure the Mounting Brackets**

**-Snap the arms into the Mounting Brackets. This will take a bit of force, but it will not damage the arms**

**-Slide the arms up or down to attain the desired height. You will most likely want the shade at the same level or a little below the top of the frame**

**-You may adjust the light spread on the artwork by loosening the rotation adjustment screws and rotating the shade (FIG 3)**
